

FOR MULTI-FAMILY RESIDENTS

DO YOU KNOW WHAT'S GOOD?
KNOW WHAT TO POUR DOWN YOUR DRAIN, TOILET, THROW IN THE GARBAGE, RECYCLE, OR COMPOST

BRLA.GOV/DES

WHAT'S GOOD

FOR YOUR DRAIN OR TOILET?

WATER

PEE, POOP, AND TOILET PAPER

WHAT'S BAD

FATS, OILS, AND GREASE (FOG) ARE THE #1 CAUSE OF SEWER BACKUPS

THE FOLLOWING ARE JUST SOME OF THE MATERIALS THAT SHOULD NEVER GO DOWN YOUR DRAIN OR TOILET:

FOG

- BAKING/COOKING GREASE
- OIL-BASED SAUCES/DRESSINGS AND MAYONNAISE
- BUTTER, LARD, CAKE FROSTING, AND ICE CREAM
- FOOD SCRAPS

OTHER PRODUCTS

- "FLUSHABLE"/BABY WIPES
- COTTON BALLS/SWABS
- CIGARETTE BUTTS
- PAPER TOWELS AND NAPKINS
- BANDAGES AND BANDAGE WRAPPINGS
- LATEX OR RUBBER
- HAIR OR COSMETICS
- MEDICATION
- PAINT, SOLVENTS, SEALANTS, AND THINNERS

WHAT'S THE PROBLEM?

Sewer systems face problems when trash and debris accumulate in pipes or in pumping stations. Your toilet is the most common way that trash and debris enter the sewer system. Sewer back-ups create major inconveniences for residents, while costing taxpayers millions of dollars each year to compensate affected homeowners and fix damaged sewer pipes.

HELP US STOP THE FOG

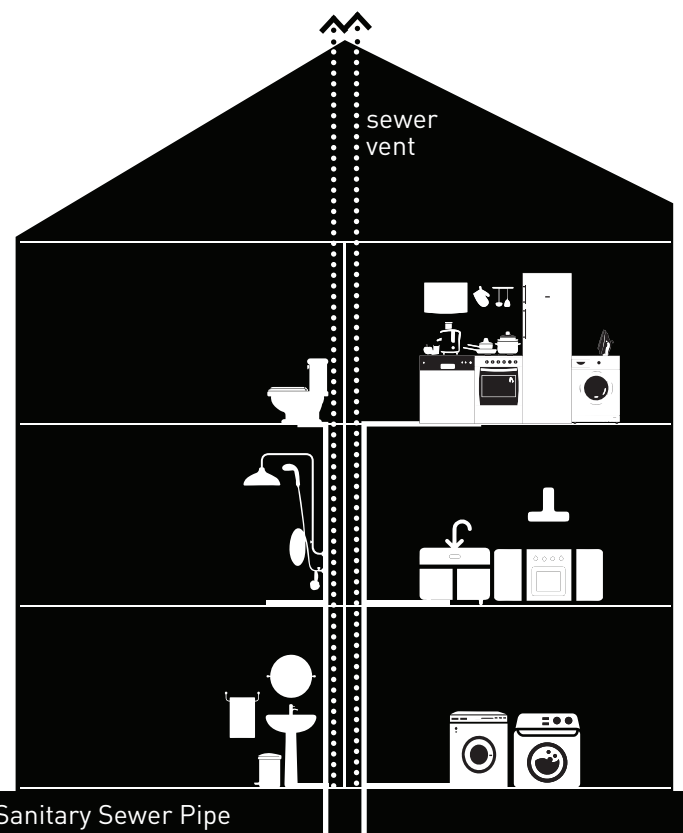

Fats, oils, and grease often come from leftovers related to food preparation, packaged foods, and food scraps, and should NEVER be put down the sink or drain. They also cause some of the most expensive and time-consuming issues with our local sewer system. These "FOG" materials stick to the inside of sewer pipes that end up restricting flow in these pipes. This results in sewer backups and overflows – not only in our streets but on residential property.

DO YOUR PART

Place a wastebasket in each of your bathrooms and dispose of bathroom trash responsibly, NOT by flushing it down the toilet.
